

PRINCE OPARA

FULLSTACK DEVELOPER, DEVOPS ENGINEER

Lagos, Nigeria | +234 707 1975 102 | www.linkedin.com/in/prince-opara24

SUMMARY

I'm a powerhouse full-stack and DevOps developer! I build sleek, high-performance websites while optimizing deployment pipelines. With sharp problem-solving skills and a deep love for tech, I deliver rock-solid solutions fast. As an intern, I'm eager to absorb new skills, tackle real-world challenges, and grow fast. Code, infrastructure, automation—I master it all and keep pushing for more!

TECHNICAL SKILLS

HTML	Node.js	AWS
CSS	Python	Bash
JavaScript	SQL	Linux Administration
React.js	Version Control: Git & GitHub	Strong problem-solving skills

PROFESSIONAL EXPERIENCE

Tek City, Hult Prize Hackathon

Jan 2024 - Feb 2024

- As the lead web developer, I spearheaded the creation of an innovative platform designed to Small-scale farmers in developing regions struggling with limited market access, unpredictable pricing, and a lack of real-time data, leading to post-harvest losses and financial instability. We created a smart digital marketplace that connects small farmers directly with buyers, suppliers, and agricultural experts

Paramount Team, Kwara State

Mar 2024 - Apr 2024

- Created an AI-powered web-based timetable scheduler that automates course scheduling, prevents class overlaps, and optimizes resource allocation for both students and faculty. I built a fast, intuitive, and responsive user interface, ensuring a smooth experience for all users. I also managed version control using Git, enabling seamless collaboration and maintaining a clean project history. I handled DevOps tasks, optimizing deployments and ensuring system reliability for the Paramount Team.

EDUCATION

Deeper Life High School

Sep 2016 - July 2022

- High School Diploma

Landmark University

Sep 2022 - Present

- Bachelor of Computer Science
